

HEL IMPROVER 4036N *with deodorant*

Ash free heating oil additive for all Yellow- and Blue flame burner

High performance components for all DIN heating oils EL as well as for Bio 5-20

HEL IMPROVER 4036N *with Deodorant* optimizes performance and effectiveness all year long and thereby reduces the heating costs by up to 8 % according to the heating system. **More warmth from the heating oil EL.**

HEL IMPROVER 4036N *with deodorant* enhances the storage stability in the holding tank and the pipes leading to the burner, reduces the maintenance requirements and increases the service life as well as the reliability of operation of the heating system.

Inside the tank:

Enhanced storage stability due to

- + reduced sedimentation
- + corrosion protection
- + heating oil smell coverage

Inside the filter:

Enhanced filterability due to

- + less blocked filter
- + reduced maintenance requirements

At the HEL-pump:

Enhanced lubricity due to

- + less pump wear
- + safe and reliable pump operation

Inside the boiler:

Optimized combustion due to

- + less emissions
- + less soot
- + less sediments
- + lesser maintenance requirement

Injection nozzles:

Higher efficiency due to

- + improved burner start-up due to clean injection nozzles
- + increased thermic HEL-stability
- + less sediments
- + better spray pattern
- + improved nebulization

Recommended dosage:

The recommended dosage of **HEL IMPROVER 4036N *with deodorant*** is: 1 litre in 2000 litres heating oil EL 1:2000

In using **HEL IMPROVER 4036N *with deodorant*** the heating oil supplier gains the chance to offer heating oils of premium quality to his customers.
